PURVIANCE FUNERAL FRIDAY.

Body of Late Maryville Man Brought to His Home Wednesday Night—Services at Swan Chapel.

The body of the late Henry Sidwell Purviance of this city, who died Tuesday morning at the Mayo hospital in Rochester, Minn., was brought to his home in this city Wednesday night by his nephew, Frank Purviance, who was with him during his stay at Rochester.

The funeral services will take place Friday afternoon at 2:30 o'clock at Swan Chapel, eleven miles southwest of Maryville, conducted by Rev. Gilbert S. Cox of the First M. E. church of this city.

The burial service will be under the direction of the local W. O. W. lodge.

Mr. Purviance went to Rochester a little over three weeks ago to be operated on, and his disease was found to be cancer. He retired from the marble business in this city about seven years ago, and had not re-engaged in business. Previous to that time he had taught school for many years. He was born in Valparaiso, Ind., May 23, 1858. When a young boy he came to Missouri with his parents, the late Mr. and Mrs. J. E. Purviance, who located in Schuyler county for some years. They came to Nodaway county thirty-two years ago and located near Maryville. He is survived by a brother, Hugh H. Purviance, living south of Maryville, and Miss Jennie Purviance, who made her home with him in this city.

The following nieces and nephews from a distance are here for the funeral: Mrs. W. L. Gray of Black River Falls, Wis.; Mrs. Glen Cryder of Maysville; Mr. and Mrs. Otis Morrison of Savannah.

OVER ONE HUNDRED VOICES.

"Mistress Mary" Will Suit a Maryville Audience to a "T"—A Chorus of Shepherds a Feature.

Probably the prettiest scene in "Mistress Mary," the charming opera that Miss Martin, its author, will begin general rehearsal for this Thursday evening in the basement of the First M. E. church, will be the county fair scene, at which a bevy of Maryville's loveliest girls will be peddlers of good things to eat to the county fair visitors.

While another part that will be likely to be thought more attractive by many is the Nursery Governesses to the Trained Lambs, "the wonder of the county fair." The girls who will have this part are Dorothy McDonald, Lucile Wright, Abbie Colden, Virginia Lawson, Helen Rose Crawford, Marie Davenport, Lesky Wray, Gladys Morehouse and Helen Dean.

One hundred and fifteen voices will present this beautiful opera. Miss Martin has usually had the assistance of 175 voices, but the stage at the Empire will not permit that many people on the stage.

Thirty little fairies, from 5 to 10 years old, will do wonderful works, and a chorus of twenty-two young men and young women will play as shepherds and shepherdesses.

The story and scene of "Mistress Mary" is laid at Happy Valley Farm, owned by Madam Blue and managed by her son, Boy Blue, who is a progressive rancher, more or less envied for his success in sheep raising. He is in love with Mistress Mary, his Head Shepherdess, who is also his adopted sister, having been found by Madam Blue when a baby, apparently a nameless waif.

In the first act a chorus of shepherds are refreshing themselves at a spring near the homestead when the postman arrives. He exchanges gossip with them, distributes the mail, and Boy Blue disperses them to the various duties of preparing for the Blue county sheep show, which is to be held at the farm the next day. Mary receives a letter telling her of her parentage and inheritance of a large fortune. She teases Boy Blue, and will not let him see the letter, then flirts openly with Tom, the "black sheep," a rival sheep rancher, who later finds this letter and determines to win her for his wife. Boy Blue calls a final "dress rehearsal" of his trained lambs, whose performances are the wonder of the county.

But this is all we are going to tell of the story. The rest must be kept secret. You will enjoy it all the more. It is a pretty story, abounding in exquisite music, and several spectacular scenes of excellent merit.

Mrs. Frank Loch and children of Ravenwood were in Maryville Wednesday to meet Mrs. Loch's mother, Mrs. Margaret Williams of Pickering, who accompanied them home for a visit.

Mrs. Eleanor Clark of Pickering came to Maryville Wednesday evening to visit her daughter, Mrs. E. J. Williams.

ELLISON TO ST. JOSEPH.

To Sit in Crandell Case as Special Judge—To Be Tried April 23.

Judge W. C. Ellison of Maryville will be called to St. Joseph to hear the cases against Dr. U. G. Crandell and Joseph I. McDonald, members of the board of police commissioners of that city, who have been indicted on charges of misconduct and oppression in office.

The cases have been set for April 23 by Judge T. F. Ryan, and if Judge Ellison is unable to act at that time the cases will be continued until later in the term. It is the desire of both sides that the case be disposed of at this term of court.

In the motion for a change of venue filed by Joseph I. McDonald, against whom there is but one charge, prejudice is alleged both on the part of Judge Ryan and Charles H. Mayer, judge of the second division of the circuit court. It is charged that Judge Mayer had a hand in the proceedings which resulted in the indictment, and insisted upon the indictment.

Judge Ryan named Judge Ellison as special judge in the case after John D. McNeely, attorney for the defendants, had filed a motion for a change of venue.

Later the court said that McDonald should know that he was not prejudiced in the case. He also declared that it was unnecessary to put in the allegation about Judge Mayer, because he never named another judge of the county, who is familiar with local feeling, without consulting the attorneys in the case.

Mr. Dalby expects to put in a good plant if he secures the franchise and the contract for the street lights, and estimates the cost at from $10,000 to $20,000, and should he secure the rights he will begin the erection of the plant within sixty days.

In the event that he puts in the plant he will run an ice factory in connection.

CLEAN-UP DAY SET

FOR MONDAY, APRIL 20, BY MAYOR U. S. WRIGHT.

ALL ARE URGED TO HELP

The City to Be Made Clean Just Before the Track Meet—Woman's Federation Will Help.

Monday, April 20th has been set aside as general clean-up day by Mayor U. S. Wright. It is intended to make Maryville the city beautiful at this time, owing to the fact that during that week the northwest Missouri track meet will be held, and there will be hundreds of out-of-town visitors in attendance.

The various federations of women's clubs will assist Mayor Wright in carrying out this plan, and all public spirited citizens will undoubtedly play a leading part in it.

The city has agreed to remove all of the old and unsightly rubbish that has accumulated over the city free of charge, and all that will be required of the citizens is that they place the refuse on the street or pavement near the curbing by 12 o'clock noon.

It is not the intention of the city, however, to remove ashes, cinders, tree tops and such other refuse as is required to be removed by the city ordinances.

Following is the proclamation issued by Mayor Wright:

I, U. S. Wright, mayor of the city of Maryville, Mo., do hereby proclaim Monday, April 20th, as general clean-up day, and request all citizens to clean up their premises and deposit all unsightly rubbish, tin cans, etc., on the street or pavement near the curb by 12 o'clock noon of said day and the same will be removed by the city free of charge.

Why we sell Stein-Bloch Men's Suits

We might have obtained exclusive control of any one of half-a-dozen other makes of men's clothes.

We choose *Stein-Bloch*—

BECAUSE we regard them as the best clothes for men, dollar for dollar, stitch for stitch, made in America—

BECAUSE we have set certain high standards for this store and this business that any clothes inferior to *Stein-Bloch* would endanger.

This is the story in a nutshell.

Bought Freight Locomotives.

Delivery of the twenty-five freight locomotives purchased by the Missouri Pacific-Iron Mountain in January has just been completed, the last of the engines having been turned over to the company at St. Louis a few days ago. They were built by the Baldwin Locomotive works of Philadelphia. They are of the mikado type and are among the largest and most powerful of that class in service on any railroad in the country. Each weighs 400,000 pounds when equipped for service, and measures 78 feet 4½ inches in length and 15 feet 5½ inches in height. The cylinders measure 27x30 inches, and the boilers have a steam pressure capacity of 170 pounds to the square inch. The weight on the main driving wheels is 209,000 pounds and the engines have a tractive force of 50,160 pounds. They are equipped with electric headlights, electric cab lights and Schmidt superheaters. Eight of the engines have been assigned to service on the Joplin division, eight to the Omaha division and six to the southern Kansas division.

CLEANER CITY UP TO WOMEN

Those of Better Class Worst Offenders.

DON'T BLAME UNTIDY MAN.

Virtue and Cleanliness Can't Be Legislated Into People—We're Mad on the Subject of Making Laws and Quite Indifferent to Enforcing Them.

By MRS. E. R. HEWITT,
President of Women's Municipal league, New York city.

The women who don't meet their own little responsibilities are often the very ones who are on the lookout for bigger ones.

It's a bore to see that our own ash cans are of the right size, and it's so much more interesting to bustle about and make the public conscious of it responsibility about something.

We women of the better class are the worst offenders, because we know what we ought to do, and we don't do it. Somehow we feel outside of the law. The poor are made to feel its restrictions much more sharply.

Cleanliness is an instinct with women that has survived in spite of the fact that we are all fundamentally lazy and many are untidy. It has survived, I think, because it makes for health. I don't blame the men for being untidy, because it isn't their fault. We haven't brought them up properly, and nature didn't make them so to begin with. We haven't been stern enough with them. For one thing, we don't make them ashamed to look us in the eye when they come into the house just after throwing a cigar away in the street before entering. We don't object to their lazy ways so long as they don't bring the stumps in with them. There you have the root of the whole matter—we don't, any of us, feel our own responsibility in the little things that go to make our streets dirty, our city a bad example of municipal sanitation.

You can't legislate virtue and cleanliness into people, but just now we are mad on the subject of making laws and quite indifferent to enforcing them. We are not law abiding citizens; we are chronic breakers of the law. We adore the order that we find in European cities and wonder why we can't have it here. That order is imposed from authority above; here it must come from within if it comes at all. If we don't like that kind of self government we may go and live elsewhere, but while we are here we must abide by our self made rules if we would have order and good health. Enforcement of the rules of sanitation lies with the woman at the head of the house.

The Woman's Municipal league is making propaganda for a cleaner city by disseminating information about the rules and regulations which we would follow if we tried to be law abiding citizens. It is divided into sections, each of which is captained and organized like a separate county in a state and through which the work is being done. One of the most recent activities of the league was the measuring of ash cans, which revealed a very distressing state of affairs—to wit, that the greater number were oversized and only imposed upon the city's ash can dumper a harder task than his should be.

SPREADING GOSPEL OF CLEANLINESS.

The scope of cleanup day in New York city is being widened. A special hygienic program for schoolboy athletes prominent in cleaning up the town has been arranged as follows:

Go to bed at 8 o'clock after a thorough wash and a cold splash over chest and trunk. Scrub teeth and gums well. Have clothes and books ready for the morrow.

Open bedroom windows at top and bottom.

Get up not a minute later than 7 o'clock. Go through a two minute drill and hygienic exercises. Clean face and neck and scrub hands. Finish up with a big cold splash and hard rub all over. See that feet and legs are clean and rub them hard to get them into condition. Brush teeth and gums thoroughly.

Breakfast and all meals: No coffee, no tea. Drink milk a little at a time. Chew all food to a pulp. Ask your teacher what foods to avoid. No smoking.

Before school look yourself over.

Am I clean from head to toe?

Are all my clothes clean and in order down to the skin?

Do I stand up like an athlete?

GIVE TOWN ITS ANNUAL SHAMPOO!

Almost every city and town in the country is getting ready for its annual bath, its grand municipal shampoo and sandpapering. It is up to this town to get ready. Everybody should lend a hand.

Now, all together; get busy in a tremendous cleanup.

To Whom It May Concern

YOUR CHILD'S SIGHT

Should be a most important consideration. Many children are handicapped in school or subjected to petty nervous or physical ills by the effects of imperfect vision.

An examination of the eyes of 100,000 school children in New York City showed that nearly 30 per cent needed glasses. In Boston it was more than 20 per cent, and most of them were down on the books as "stupid," "stubborn" or "unruly."

Wearing glasses in childhood often averts serious trouble later on. Have our optician examine your child's eyes. If glasses are not needed you may be sure we will tell you so frankly.

PURVIANCE FUNERAL FRIDAY.

Body of Late Maryville Man Brought to His Home Wednesday Night—Services at Swan Chapel.

The body of the late Henry Sidwell Purviance of this city, who died Tuesday morning at the Mayo hospital in Rochester, Minn., was brought to his home in this city Wednesday night by his nephew, Frank Purviance, who was with him during his stay at Rochester.

The funeral services will take place Friday afternoon at 2:30 o'clock at Swan Chapel, eleven miles southwest of Maryville, conducted by Rev. Gilbert S. Cox of the First M. E. church of this city.

The burial service will be under the direction of the local W. O. W. lodge.

Mr. Purviance went to Rochester a little over three weeks ago to be operated on, and his disease was found to be cancer. He retired from the marble business in this city about seven years ago, and had not re-engaged in business. Previous to that time he had taught school for many years. He was born in Valparaiso, Ind., May 23, 1858. When a young boy he came to Missouri with his parents, the late Mr. and Mrs. J. E. Purviance, who located in Schuyler county for some years. They came to Nodaway county thirty-two years ago and located near Maryville. He is survived by a brother, Hugh H. Purviance, living south of Maryville, and Miss Jennie Purviance, who made her home with him in this city.

The following nieces and nephews from a distance are here for the funeral: Mrs. W. L. Gray of Black River Falls, Wis.; Mrs. Glen Cryder of Maysville; Mr. and Mrs. Otis Morrison of Savannah.

OVER ONE HUNDRED VOICES.

"Mistress Mary" Will Suit a Maryville Audience to a "T"—A Chorus of Shepherds a Feature.

Probably the prettiest scene in "Mistress Mary," the charming opera that Miss Martin, its author, will begin general rehearsal for this Thursday evening in the basement of the First M. E. church, will be the county fair scene, at which a bevy of Maryville's loveliest girls will be peddlers of good things to eat to the county fair visitors.

While another part that will be likely to be thought more attractive by many is the Nursery Governesses to the Trained Lambs, "the wonder of the county fair." The girls who will have this part are Dorothy McDonald, Lucile Wright, Abbie Colden, Virginia Lawson, Helen Rose Crawford, Marie Davenport, Lesky Wray, Gladys Morehouse and Helen Dean.

One hundred and fifteen voices will present this beautiful opera. Miss Martin has usually had the assistance of 175 voices, but the stage at the Empire will not permit that many people on the stage.

Thirty little fairies, from 5 to 10 years old, will do wonderful works, and a chorus of twenty-two young men and young women will play as shepherds and shepherdesses.

The story and scene of "Mistress Mary" is laid at Happy Valley Farm, owned by Madam Blue and managed by her son, Boy Blue, who is a progressive rancher, more or less envied for his success in sheep raising. He is in love with Mistress Mary, his Head Shepherdess, who is also his adopted sister, having been found by Madam Blue when a baby, apparently a nameless waif.

In the first act a chorus of shepherds are refreshing themselves at a spring near the homestead when the postman arrives. He exchanges gossip with them, distributes the mail, and Boy Blue disperses them to the various duties of preparing for the Blue county sheep show, which is to be held at the farm the next day. Mary receives a letter telling her of her parentage and inheritance of a large fortune. She teases Boy Blue, and will not let him see the letter, then flirts openly with Tom, the "black sheep," a rival sheep rancher, who later finds this letter and determines to win her for his wife. Boy Blue calls a final "dress rehearsal" of his trained lambs, whose performances are the wonder of the county.

But this is all we are going to tell of the story. The rest must be kept secret. You will enjoy it all the more. It is a pretty story, abounding in exquisite music, and several spectacular scenes of excellent merit.

Mrs. Frank Loch and children of Ravenwood were in Maryville Wednesday to meet Mrs. Loch's mother, Mrs. Margaret Williams of Pickering, who accompanied them home for a visit.

Mrs. Eleanor Clark of Pickering came to Maryville Wednesday evening to visit her daughter, Mrs. E. J. Williams.

ELLISON TO ST. JOSEPH.

To Sit in Crandell Case as Special Judge—To Be Tried April 23.

Judge W. C. Ellison of Maryville will be called to St. Joseph to hear the cases against Dr. U. G. Crandell and Joseph I. McDonald, members of the board of police commissioners of that city, who have been indicted on charges of misconduct and oppression in office.

The cases have been set for April 23 by Judge T. F. Ryan, and if Judge Ellison is unable to act at that time the cases will be continued until later in the term. It is the desire of both sides that the case be disposed of at this term of court.

In the motion for a change of venue filed by Joseph I. McDonald, against whom there is but one charge, prejudice is alleged both on the part of Judge Ryan and Charles H. Mayer, judge of the second division of the circuit court. It is charged that Judge Mayer had a hand in the proceedings which resulted in the indictment, and insisted upon the indictment.

Judge Ryan named Judge Ellison as special judge in the case after John D. McNeely, attorney for the defendants, had filed a motion for a change of venue.

Later the court said that McDonald should know that he was not prejudiced in the case. He also declared that it was unnecessary to put in the allegation about Judge Mayer, because he never named another judge of the county, who is familiar with local feeling, without consulting the attorneys in the case.

Electric Light Plant at Hopkins.

Hopkins is now practically assured of having electric lights in the future.

Mr. Dalby expects to put in a good plant if he secures the franchise and the contract for the street lights, and estimates the cost at from $10,000 to $20,000, and should he secure the rights he will begin the erection of the plant within sixty days.

In the event that he puts in the plant he will run an ice factory in connection.

CLEAN-UP DAY SET

FOR MONDAY, APRIL 20, BY MAYOR U. S. WRIGHT.

ALL ARE URGED TO HELP

The City to Be Made Clean Just Before the Track Meet—Woman's Federation Will Help.

Monday, April 20th has been set aside as general clean-up day by Mayor U. S. Wright. It is intended to make Maryville the city beautiful at this time, owing to the fact that during that week the northwest Missouri track meet will be held, and there will be hundreds of out-of-town visitors in attendance.

The various federations of women's clubs will assist Mayor Wright in carrying out this plan, and all public spirited citizens will undoubtedly play a leading part in it.

The city has agreed to remove all of the old and unsightly rubbish that has accumulated over the city free of charge, and all that will be required of the citizens is that they place the refuse on the street or pavement near the curbing by 12 o'clock noon.

It is not the intention of the city, however, to remove ashes, cinders, tree tops and such other refuse as is required to be removed by the city ordinances.

Following is the proclamation issued by Mayor Wright:

I, U. S. Wright, mayor of the city of Maryville, Mo., do hereby proclaim Monday, April 20th, as general clean-up day, and request all citizens to clean up their premises and deposit all unsightly rubbish, tin cans, etc., on the street or pavement near the curb by 12 o'clock noon of said day and the same will be removed by the city free of charge.

Done this 15th day of April, 1914.

Why we sell Stein-Bloch Men's Suits

We might have obtained exclusive control of any one of half-a-dozen other makes of men's clothes.

We choose *Stein-Bloch*—

BECAUSE we regard them as the best clothes for men, dollar for dollar, stitch for stitch, made in America—

BECAUSE we have set certain high standards for this store and this business that any clothes inferior to *Stein-Bloch* would endanger.

This is the story in a nutshell.

Bought Freight Locomotives.

Delivery of the twenty-five freight locomotives purchased by the Missouri Pacific-Iron Mountain in January has just been completed, the last of the engines having been turned over to the company at St. Louis a few days ago. They were built by the Baldwin Locomotive works of Philadelphia. They are of the mikado type and are among the largest and most powerful of that class in service on any railroad in the country. Each weighs 400,000 pounds when equipped for service, and measures 78 feet 4½ inches in length and 15 feet 5½ inches in height. The cylinders measure 27x30 inches, and the boilers have a steam pressure capacity of 170 pounds to the square inch. The weight on the main driving wheels is 209,000 pounds and the engines have a tractive force of 50,160 pounds. They are equipped with electric headlights, electric cab lights and Schmidt superheaters. Eight of the engines have been assigned to service on the Joplin division, eight to the Omaha division and six to the southern Kansas division.

CLEANER CITY UP TO WOMEN

Those of Better Class Worst Offenders.

DON'T BLAME UNTIDY MAN.

Virtue and Cleanliness Can't Be Legislated Into People—We're Mad on the Subject of Making Laws and Quite Indifferent to Enforcing Them.

By MRS. E. R. HEWITT,
President of Women's Municipal league, New York city.

The women who don't meet their own little responsibilities are often the very ones who are on the lookout for bigger ones.

It's a bore to see that our own ash cans are of the right size, and it's so much more interesting to bustle about and make the public conscious of it responsibilty about something.

We women of the better class are the worst offenders, because we know what we ought to do, and we don't do it. Somehow we feel outside of the law. The poor are made to feel its restrictions much more sharply.

Cleanliness is an instinct with women that has survived in spite of the fact that we are all fundamentally lazy and many are untidy. It has survived, I think, because it makes for health. I don't blame the men for being untidy, because it isn't their fault. We haven't brought them up properly, and nature didn't make them so to begin with. We haven't been stern enough with them. For one thing, we don't make them ashamed to look us in the eye when they come into the house just after throwing a cigar away in the street before entering. We don't object to their lazy ways so long as they don't bring the stumps in with them. There you have the root of the whole matter—we don't, any of us, feel our own responsibility in the little things that go to make our streets dirty, our city a bad example of municipal sanitation.

You can't legislate virtue and cleanliness into people, but just now we are mad on the subject of making laws and quite indifferent to enforcing them. We are not law abiding citizens; we are chronic breakers of the law. We adore the order that we find in European cities and wonder why we can't have it here. That order is imposed from authority above; here it must come from within if it comes at all. If we don't like that kind of self government we may go and live elsewhere, but while we are here we must abide by our self made rules if we would have order and good health. Enforcement of the rules of sanitation lies with the woman at the head of the house.

The Woman's Municipal league is making propaganda for a cleaner city by disseminating information about the rules and regulations which we would follow if we tried to be law abiding citizens. It is divided into sections, each of which is captained and organized like a separate county in a state and through which the work is being done. One of the most recent activities of the league was the measuring of ash cans, which revealed a very distressing state of affairs—to wit, that the greater number were oversized and only imposed upon the city's ash can dumper a harder task than his should be.

SPREADING GOSPEL OF CLEANLINESS.

The scope of cleanup day in New York city is being widened. A special hygienic program for schoolboy athletes prominent in cleaning up the town has been arranged as follows:

Go to bed at 8 o'clock after a thorough wash and a cold splash over chest and trunk. Scrub teeth and gums well. Have clothes and books ready for the morrow.

Open bedroom windows at top and bottom.

Get up not a minute later than 7 o'clock. Go through a two minute drill and hygienic exercises. Clean face and neck and scrub hands. Finish up with a big cold splash and hard rub all over. See that feet and legs are clean and rub them hard to get them into condition. Brush teeth and gums thoroughly.

Breakfast and all meals: No coffee, no tea. Drink milk a little at a time. Chew all food to a pulp. Ask your teacher what foods to avoid. No smoking.

Before school look yourself over.

Am I clean from head to toe?

Are all my clothes clean and in order down to the skin?

Do I stand up like an athlete?

GIVE TOWN ITS ANNUAL SHAMPOO!

Almost every city and town in the country is getting ready for its annual bath, its grand municipal shampoo and sandpapering. It is up to this town to get ready. Everybody should lend a hand.

Now, all together; get busy in a tremendous cleanup.

To Whom It May Concern

YOUR CHILD'S SIGHT

Should be a most important consideration. Many children are handicapped in school or subjected to petty nervous or physical ills by the effects of imperfect vision.

An examination of the eyes of 100,000 school children in New York City showed that nearly 30 per cent needed glasses. In Boston it was more than 20 per cent, and most of them were down on the books as "stupid," "stubborn" or "unruly."

Wearing glasses in childhood often averts serious trouble later on. Have our optician examine your child's eyes. If glasses are not needed you may be sure we will tell you so frankly.
